

Recognition Reimagined

Challenging situations and unique times call for nimble action. Keep a commitment to your organization's annual recognition plans with a virtual ceremony. As experts in recognition, we can deliver for your winners, whether recreating a live event or creating a personal recognition experience.

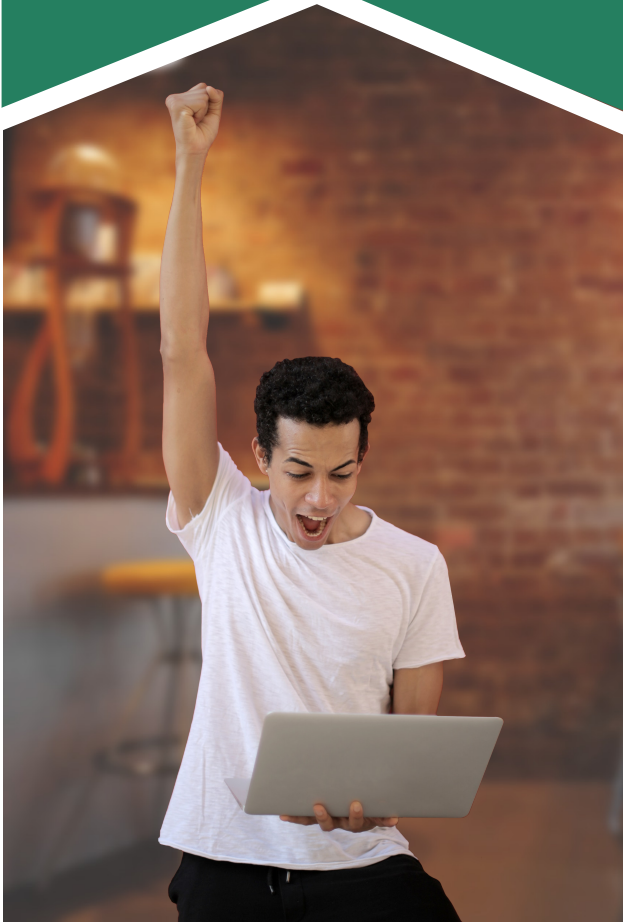

Live Presentation. We are experienced in producing meetings and events while streaming it to a live, online audience. With multiple camera angles, recreate the look, feel and sound of the actual event and include the attendees electronically.

Celebration. Winners will receive tailored messages communicating their award shipping status. Awards will be delivered in custom packaging and include a unique QR code link to their personalized recognition website.

Fogarty Services can produce common content for the entire organization, then populate peer and workgroup congratulatory messages and videos that management and co-workers upload to our recognition portal. A unique experience awaits each recipient.

Winners will be encouraged to record themselves unboxing their award. Posting to social media with custom hashtags builds excitement within your organization.

Interactive Gift Suite. If your winners receive gifts, include a link to our interactive shopping experience. The site allows them to browse through the catalog of pre-selected items with shipping options.
