Fogarty
SERVICES INC.

Audio

Sound quality is the most important element to any gathering. Intelligible audio makes or breaks an event.

We specialize in scalable sound systems, meaning we can fill any venue with quality audio regardless of size or location, from 50-person breakouts to arenas filled with thousands.

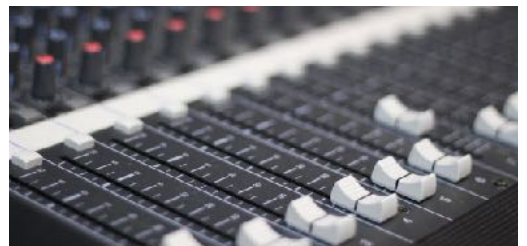

Our technicians handle anything from a single keynote speaker to complex panel discussions or mixing live bands.

Hear loud and clear:

- General sessions
- Breakouts
- Arenas
- Pre-function spaces
- Receptions or parties (indoor/outdoor)
- Concerts or festivals

Options:

- In-ear monitors
- Wireless intercom
- Catchbox microphones
- Micro body packs
- Countryman microphones
- Back line support for live bands
- Multi-zone arrangements/setups for themed parties

Fogarty

Breakouts

Fogarty
SERVICES INC.

Breakouts are the backbone of your event. While general sessions are often the focus, breakouts reinforce messaging and educate attendees.

Scaleable. Breakouts come in all shapes and sizes. We have the equipment and experience necessary to execute your vision in this area.

Speed. Our team has designed a compact system for breakouts that we named the BOB (Breakout in a Box). An entire breakout room fits in its own case. This allows us to quickly roll in and set the room with minimal time and equipment.

Video. We offer front and rear projection with screens to fit the room and TV monitors from 40"-90".

Audio. Your speakers need to be heard. Regardless of the room size, we have the audio package for every application.

Scaleable labor. Our breakout rooms are designed to be fully independent. Generally a technician will be present before a meeting starts to ensure presenters are comfortable and ready. Our staff then "float" between rooms and are available via our text-based support system to address any issues. However, dedicated technicians can produce the meetings as necessary.

Non-standard setups. Sometimes a breakout room is more than that. We handle many unique and challenging setups every year.

- **Mini trade show** (for clients or vendors)
 - Multiple booths/rooms with needs for audio presentations or video playback.
 - Demo rooms/fairs for custom presentations of new material/products
- **Mini general session/mega breakout.**
 - Call it what you will, but these medium-sized gatherings are becoming more common, and we have the equipment and staff to scale as needed.
- **Lounges**
 - Create a space for your attendees to feel relaxed and to connect.
- **Labs**
 - Setup up a computer lab or demo room for immersive learning
- **Registration areas**
 - Registrations desks, up-lights, audio, power, monitors, signage, printers, networking space with seating and charging stations
- **Offices**
 - Power, printers, monitors, and other gear to help you work effectively from the event.

Content Creation

Fogarty
SERVICES INC.

Sometimes the hardest part is starting. Let us help you create the perfect event. We have experience in every aspect of event planning and production. Allow us to help create and realize your vision. We can help ease the burden of event planning, leaving you time to focus on other program aspects.

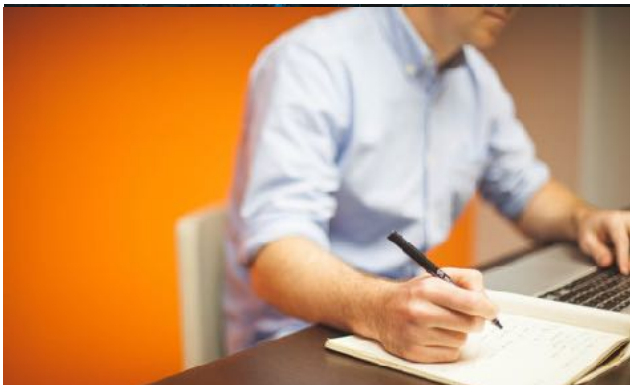

Ideation. Have a dream, but need a concept? We can help formulate and gather your ideas. It often helps to talk through initial ideas and plans with someone who knows the space.

Theme development. Once you have an idea, how do you build upon it? We can help develop a theme that ties your event together.

Production guidance. We have experienced producers and technical directors to help coach executives and employees through video shoots or on-stage performances.

Space utilization. Through the flurry of emails, calls, spreadsheets and proofs, a detailed plan emerges. With site visits, walkthroughs and scale CAD drawings and 3D renders, all aspects of the show's production are under scrutiny so no surprises await anyone on-site.

Talent scouting. We can help fill voids in program content or themed parties by finding the perfect act to pair with the event. Before signing contracts, we review riders and particulars to ensure clients' needs are met.

Virtual Events

- Conferences, graduations, ceremonies, fundraisers, etc.
- Pre-recorded or live content
- Incorporate your audience
- Studio quality video/audio

Recognition Websites

- For employees or students
- Unique for each individual
- Enabled community uploads, contributions, & congratulations

Pre-Visualization/Virtual Reality

- We can virtually create your event space.
- Be able to “walk through” the final setup using googles or computer.

Mobile App Development

- Apps for event leaders
- Apps for event participants
- Apps for your company or personal use.

Presentation Creation/Editing

- PowerPoint, Keynote, Prezi
- We can help design your presentations
- Edit or design on-site

3D/2D Animation

- Custom animation/design
- Helps with spacial visualization so you can plan with confidence.

Event Media

- Custom websites/servers/software.
- Helps to gather and use media files
- Great for recognition programs

QR Scanning

- Easy way to log and track participants
- Completely customizable
- Great for recognition programs

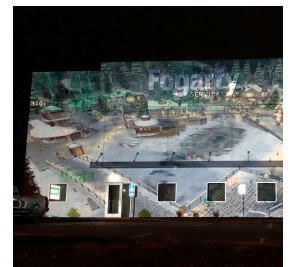

Custom Software

- Anything you need to help your event
- Registration or recognition
- You dream it and we can make it!

Projection Mapping

- Make an object come alive
- Make a screen become interactive

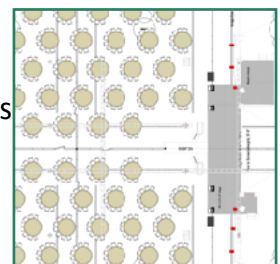

Graphic Design/Layout

- Logo & Theme design
- From physical prints to digital spaces we can create your vision.

CAD Software

- Layout your event virtually.
- Design matrix to ensure everything fits
- Exact size and scale of space and everything in it.

Drive-In Events

Fogarty
SERVICES INC.

Fogarty Services produces some of the biggest and best drive-in experiences in the nation. Regardless of your event type, the drive-in can provide a fun and proper socially distanced venue.

We can travel to any destination and work with local businesses or municipalities to secure the right location for your drive-in event.

Forbes Magazine ranked the Fogarty Services production at the St. Louis POWERplex as one of the top-10 drive-in events in the nation this summer. With your ideas and our equipment and expertise, we can transform your dream into reality.

Types of Events

- Movies
- Corporate meetings/recognition programs
- Concerts
- Graduations, homecoming and other school events
- Naturalization ceremonies
- Political rallies
- Fund-raisers and non-profit events
- Any combination of the above

Essential Equipment

- LED panels for daylight-viewable screens
- FM transmitters sending audio directly to attendees' car speakers
- Cameras and video equipment to make iMag and graphics easy to see
- Streaming technology to broadcast your event to those unable to attend in-person
- Special effects to build maximum excitement

Croquet

- Classic lawn game
- Players: 1-4

Jenga Tower

- Classic game super sized
- Players: 1-8

Human Foosball

- Classic table game super sized.
- Players: 2-8

Bocce Ball

- Classic lawn game
- Players: 2-4

Ladder Golf

- Classic lawn game
- Players: 2-4

Corn Hole

- Classic lawn game
- Players: 2-4

Foosball

- Classic table game.
- Players: 2

Mechanical Surfboard

- Comes with bounce pad
- Inflatable surf background available
- Includes insurance waiver

Mechanical Bull

- Comes with bounce pad
- Includes insurance waiver

PacMan/Galaga Arcade

- Classic table top arcade games
- Players: 1-2

Trivia App

- Great addition to party or reception
- Works with TV and iPad

Photo Booth

- Great addition to any space
- Share photos by cell or social media

#photobooth

Spice up your event and add social media savvy with our photo booth. Whether your event's purpose is to raise awareness, drive excitement toward funding a cause, or celebrate an occasion, increasing web traffic is a key component. Fogarty Services can employ photo booths to increase participation and digital marketing. These photos can be shared instantaneously with your participants and can also be posted to various social media outlets while tracking the analytics. We can give you a report highlighting the number of reaches and impressions. We also store them afterward for future use.

This selfie station will allow guests to capture the excitement of the moment and share it socially. #sharingiscaring #forthewin #yourrock

Features:

- Easy-to-use iPad interface
- Sharing via text, email and Instagram
- Green screen capabilities
- Custom graphics for any event

Fogarty
SERVICES INC.

Lighting

Fogarty
SERVICES INC.

Lighting is more than illumination. Lighting provides excitement and helps set the tone. Lighting transforms ordinary spaces into extraordinary experiences.

Moving fixtures. Moving light fixtures give your program a dynamic flare and create excitement. Movers also provide depth and texture. Customized gobos can reinforce your brand or theme.

Stage wash. Proper stage illumination is important so presenters can be seen by the audience and critical for camera operations if using IMAG.

Up-lighting. Up-lights are a great way to set the tone and highlight certain elements in the room. Often set around the perimeter of the room and along the set line, up-lights can also be used outside of the general session in the pre-function spaces to add continuity.

Spotlights. Spots accent stage areas or presenters on the move, especially if they wander offstage and into the audience.

Scenic. Add pizzazz to stage design elements and various colors of drape as part of the lighting design. Pair color and movement with our practical set pieces to create unique looks every time.

Laser pattern. We offer an assortment of static and moving laser light packages — perfect for adding texture to dark spaces.

String lights. Outdoor parties pop with string lights. From trees and truss uprights, we can hang these lights in any space.

Airstars. When you need ambient light across a wide area, these dimmable globes are the perfect addition to outdoor space to provide just the right glow.

Banquet lights. Our compact, modular LED system illuminates banquet stations for large gatherings. Instead of using large swaths of general light, these mini spots maintain the intimate ambiance of an evening event while allowing guests to choose from the food selections.

Fogarty Services is a leader in shipping and fulfillment for our clients. Using our state-of-the-art warehouse and staff, we can handle complex shipping requests with ease.

We understand that your items are important and that getting them safely into the hands of your recipients can cause stress. Let us help minimize the impact to your workflow.

We specialize in receiving bulk generic or personalized items and delivering them to your people quickly and accurately. Our team is skilled in detail management, combining multiple unique items into one comprehensive package.

Examples

- Corporate events: Delivered custom awards in gift boxes to recipients for recognition program.
- Scholastic events: Delivered graduation regalia to students that featured in their custom commencement websites; also delivered school swag and alumni items.
- Non-profit events: Fulfilled all race packets for a virtual 5k running fundraiser

Chrome Signs

- Metal sign with printed centra insert
- Mag seal pouch for paper insert

Lightboards

- Backlit custom fabric signs

Digital Signage

- TV from 40"-90" and LED Walls
- Can be used with backdrops or truss

Custom Centra

- Can be printed full color
- Can be cut into any size or shape

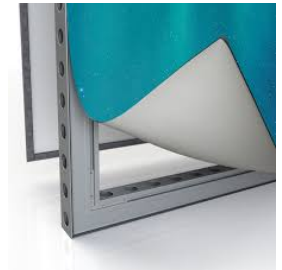

Pop Up Banners

- White leather adjustable stool.

Custom Fabric (nexus)

- Modular frame system
- Attach custom printed fabric

Custom Banners (vinyl or fabric)

- Custom printed banners for any occasion or need
- Any size

Stretch Fabric

- Custom printed fabric
- Dimensions: 16"L x 21"W x 37" H

Bow Head Banner

- Custom printed vinyl

Special Effects

Fogarty
SERVICES INC.

We offer a great assortment of special effects equipment to meet your needs for events or general session enhancements.

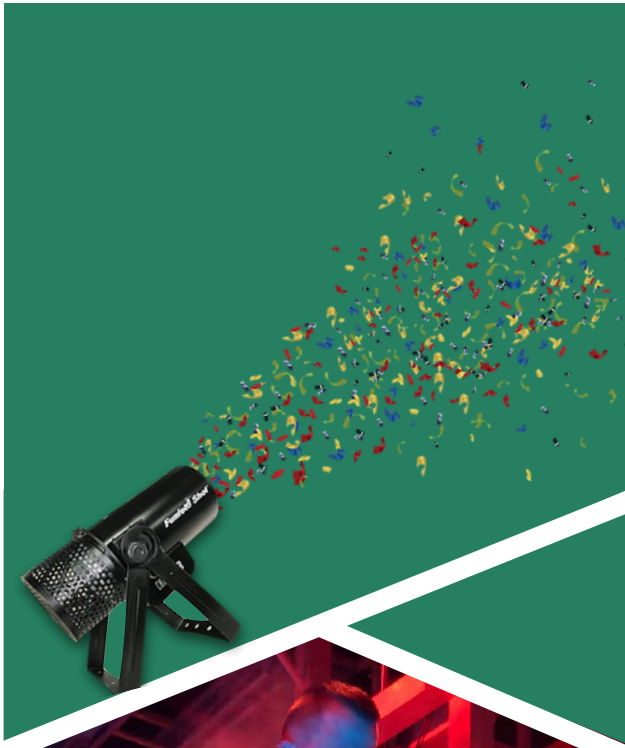

Vesuvios. Smoke cannon. These machines illuminate bursts of fog with advanced LED color mixing, providing ferocious effects for events and performances. Featuring an impressive 40,000 cubic feet of fog per minute, it boasts a best in class 40 seconds of full burst output. New dual LED sections give greater creative control for a more even coverage of light. This highly versatile unit can run in three different positions: vertically, horizontally or from overhead.

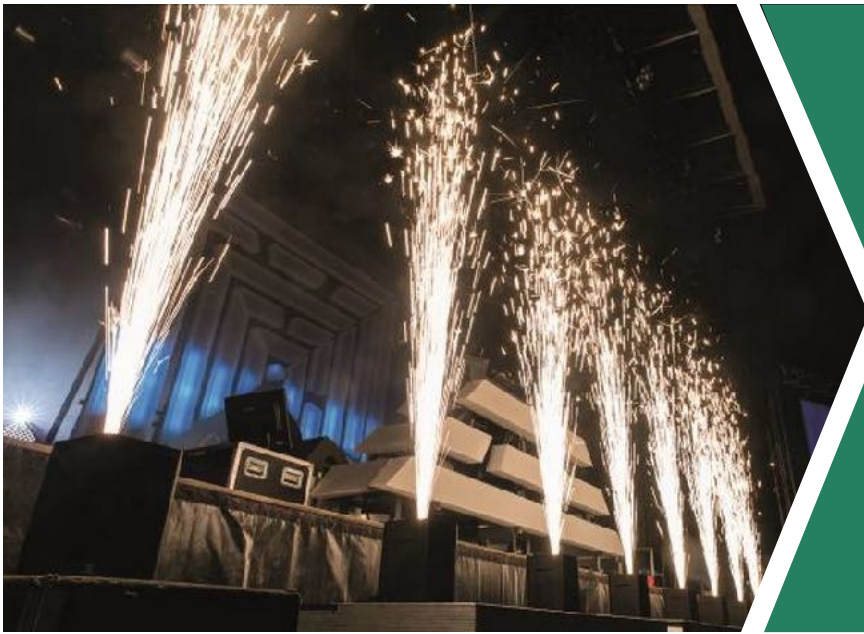

Hazers. When you need an atmospheric effect for you event look no further. These smoke machines make effects really pop, helping to produce and visualize quality light beams.

Sparkulars. Heat up the action with cold fire. These machines produce intense cold sparks up to 15 feet high. They are fully automated, completely programmable and 100% reusable. They can mounted on the ground or in the air and causes neither smoke nor bad smells. This cold spark machine works at very low temperatures even the sparks are non-flammable.

Confetti and streamer cannons. Sometimes you just want to celebrate. From recognition programs to the finish line we have the right material for you. We also feature biodegradable confetti for use outdoors.

Water Wall. A programmable waterfall/curtain hangs from standard truss and is incredibly dynamic. It can be configured to drop water in any shape, text, or graphic, while also being illuminated and used as a projection medium. Add rear-projection video behind the dropping water, and you have an exciting dimensional scene.

Sparkular

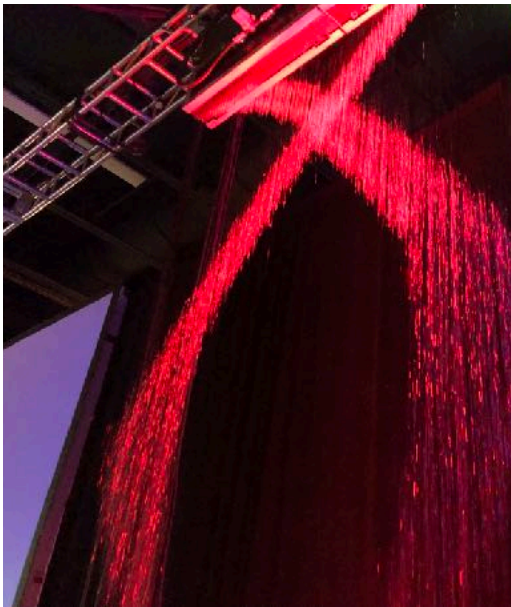

Add the hot look of cold fire to your next event. We carry an inventory of Sparkulars, an absolutely safe and digitally controlled special effect device that is not a typical fire fountain.

Using cold spark technology, the system generates no unpleasant smoke or odors. Each box can fire multiple times and be in close contact with equipment and people, making it a great effect for a grand entrance or finale. Columns can shoot up to 15' high.

Features:

- Capable of multiple shots
- Can be used on the ground or inverted for a fire curtain
- Completely safe, non-flammable, cool temperature sparks

Fogarty
SERVICES INC.

Water Wall

Immerse your attendees in a new spectacle with a programmable waterfall/curtain. This modular system hangs from standard truss and is incredibly dynamic. It can be configured to drop water in any shape, text or graphic, while also being illuminated and used as a projection medium. Add rear-projection video behind the falling water, and you have an exciting dimensional scene.

This system comes in four-foot lengths, making it the perfect fit for almost any project. The falling water can be synced to music and other timed elements. It's a fantastic addition to any general session or trade show space.

Brainstorm with us how to use water at your next event.

Features:

- Completely programmable and customizable
- Capable of dropping letters, shapes and images in water
- Can be used as part of a stage/set or a standalone feature

Fogarty
SERVICES INC.

Platforms

- Heavy duty modular staging.
- Including custom shapes, size, ramps.

Nexus Panels

- Custom fabric panels.

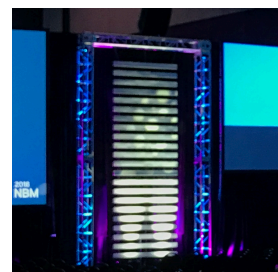

Crunch Screens

- Staging element to hang on drape.
- Thin metal mesh. Takes light well.

Louvers

- Staging element to hang on drape.
- Thin wooden slats. Takes light well.

**Pallet Display**

- Wooden pallet wood tiered shelf.

**Museum Pedestal**

- Black metal pedestals

**Registration Desk**

- White counter desk w/ fabric panel.

**Nexus Registration Desks**

- Customizable registration desk.

Scenic Design

From basic pipe and drape, to high tech truss sets, to full custom creations, we can design the perfect set for your conference or meeting.

One of the best compliments we receive from the venues where we stage events is, "we have never seen anyone do anything like this before."

From preliminary ideas to the final ensemble, our set designers create theater-quality stages even in the most unforgiving spaces. But there's no need to get too elaborate, if the budget or theme does not call for it. Simple set walls with small finishing touches can enhance any program.

If budgets call for an even simpler approach, we work with clients on upgrading a standard pipe-and-drape wall with an inventory of scenic elements, such as panels, louvers, acrylic texture sheets and even LED panels in a variety of shapes.

Fogarty
SERVICES INC.

Black Drape

- Black velour drape.
- Heights: 18', 32'

Gray Drape

- Gray velour drape
- Takes light well
- Heights: 20'

Tergalet Drape

- White silky tergalet drape
- Takes light very well
- Used as accent

- Linens for 8' rectangle and cocktail rounds
- Black and white in stock

Spandex Table Covers

- Spandex cover for tables
- 8' rectangle or cocktail round
- Colors: White, blue

Custom Backdrops

- We can custom digital print
- backdrops and murals
- Dimensions: any size

Video Production

Fogarty
SERVICES INC.

You can find us in the studio or traveling the world, recording audio or video with a cast that could include professional actors, amateurs or actual employees chosen for each job. Video projects have included commercial advertising, employee communications, training, corporate capabilities and sales campaign kickoffs.

Options

- **Live.** More than just IMAG in the general session — our team records the presentations, breakouts, arrivals, parties/receptions and more to deliver a highlight package of the event or a synopsis of the keynotes.
- **On location.** We go where the action is, no matter where it is, to capture your vision.
- **Studio.** Pre-produced segments recorded prior to the event ensure your message stays on target.

Producing

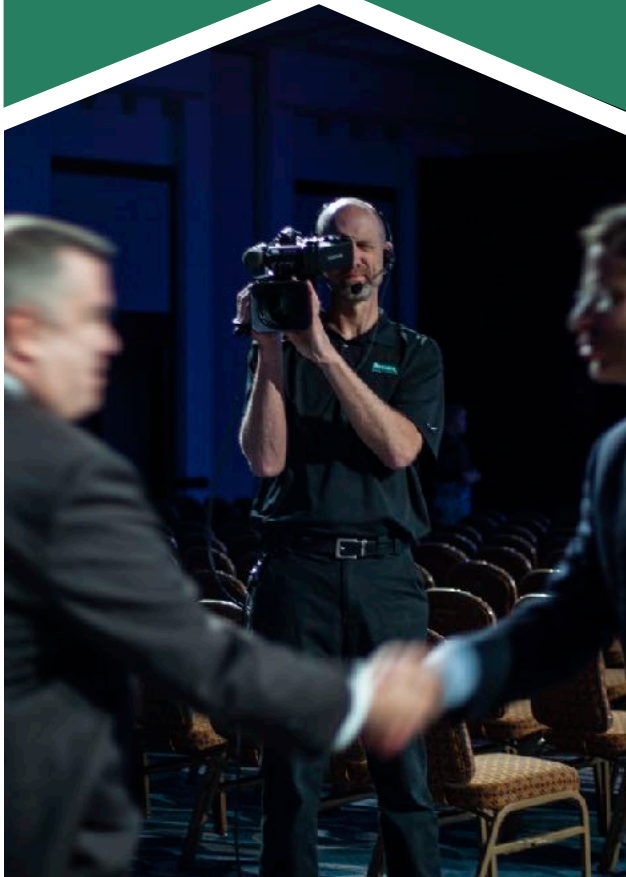

- **Writing/scripting.** We work with clients to develop messaging and content, tying together imagery with voice-overs or choosing appropriate narration for on-screen talent.

Shooting

- **Video.** Whether on location or in the studio, we have multiple camera setups and rigs, drones, Go-Pros and are 4K cinema-capable.
- **Audio.** It may look great, but the accompanying sound needs to match. Our sound engineers work with the videographers in the field for the best capture. We also are experienced in recording voice overs and narration in-studio.
- **Lighting.** We have a full assortment of studio and on-location lighting to ensure video quality is top notch.

Editing

- **Editors.** Our team consists of some of the most efficient and highly trained editors in the industry. We understand timelines and budgets are often short, and we have the tools and team to meet your needs.

Video Displays

One of the key aspects of any event is video. From registration to breakouts, signage, to general session you have messages your attendees need to see. Let us handle all of your video requirements with our selection of displays. From projection to television we have what you need.

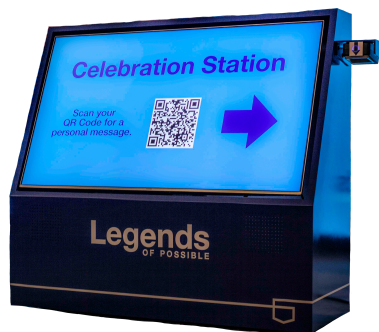

Projection. We offer front and rear projection for any project. From small 8' screens in breakouts to 72' blended screen projection for the general session we have it all. We ensure an image large and bright enough to exceed your expectations.

LED Wall. Our modular LED system is made up of individual 20" square tiles. These can be configured into any size or shape imaginable. Many times they are configured as a 16:9 screen. However, they are often utilized as columns, curved displays, and accent pieces as part of stage set.

TV Monitors. We have a monitor for every need. From 20" to 90" we have you covered. TV monitors can be mounted in either horizons or vertical positions.

Media Walls. We have the ability to house any of our TVs in fabric enclosures to make custom media walls. You dream it and we can make it happen.

Celebration Stations. These rolling enclosures house 55" televisions. These make great welcome kiosks or recognition stations with the attached QR scanner.

Fogarty
SERVICES INC.

Custom LED Wall

Configurations can be endless with our modular LED panel system. These outdoor-rated tiles work in any number of ways to meet the our clients' needs.

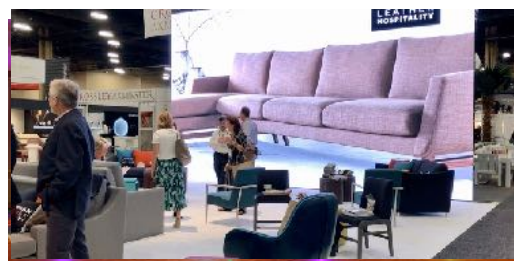

The most common application is a 16x9 widescreen display, but it can expand beyond this and use columns or shapes for dynamic scenic decor.

The LED panels really shine in a trade show environment. From a giant video wall, to ribbon banners, or columns, the LEDs grab attention and create foot traffic.

Brainstorm with us how to use LED at your next event.

Features:

- 20"x20" modular tiles can be configured in any way
- Create curved or abstract graphic walls for general session or trade show
- Can be used outdoor for signage, parties or content

Fogarty
SERVICES INC.

Virtual Events

Regardless of your event type, broadcasting it virtually can provide an engaging and safe way to reach your audience, and Fogarty Services has built its reputation on producing seamless events — both live and digitally.

We realize that virtual meetings have become the normal. We also understand that this format is often underwhelming and less-than stellar. From poor video and audio quality to confusing software and competing platforms, participants often feel isolated.

Using state-of-the-art technology while pioneering innovative and intuitive user interfaces, we have created the perfect platform for any project. These systems have been developed and tested for years in the corporate event and business meeting space. During the pandemic, we adapted our workflow to be used by all of our clients for all event types.

By using pre-recorded, live, and “look live” segments, your event becomes a seamless production. You can have a polished, studio-level product that incorporates live elements and allows those on stage to interact with those connecting virtually. These aspects and more work to engage and encourage your attendees by providing a level of excitement and production quality missing from many virtual experiences.

Types of Events

- Corporate meetings/recognition programs
- Non-profit fund-raisers
- Graduations and other academic ceremonies

Equipment & Expertise

- Work with a number of different platforms to ensure consistent workflow with your organization: Zoom, Microsoft Teams, Webex, GoTo Meeting, etc.
- State-of-the-art facility for both studio creation and streaming
- On location to shoot, stream, and create a virtual studio
- Ship easy-to-use mobile recording/streaming equipment to off-site locations for remote recording or broadcasting

Virtual Graduations

Fogarty Services has become the leader in experiential commencement and student recognition. Whether you have a traditional in-person event, virtual only or a hybrid, we can produce it to perfection.

We realize that 2020 changed the way you view your events. We also understand that providing a product that resonates with the students is just as important as ensuring that you are proud to put your stamp on it.

Our goal is to remove your stress and give your graduates an experience that makes them feel appreciated. We can provide a virtual version of your event and couple it with recognition websites that are unique to your students.

Family, friends, faculty and community members can contribute to these sites. Congratulatory remarks, photos and videos can be uploaded to any and all graduates. This provides the students with a sense of value and inclusion often missing from a virtual-only event.

We also offer fulfillment for school swag and graduation regalia. This can be a great way to connect with students or to launch your virtual programs. We accomplish this in-house with our warehouse division.

This combination of services ensures that you attain the best possible commencement experience, and we strive to find the right balance between production and your budget.

Types of Events

- Graduation/commencement/convocation
- Coating and other ceremonies
- Homecoming events
- Fund-raisers

Equipment & Expertise

- State-of-the-art facility for both studio creation and streaming
- On-location option to shoot, stream and create a virtual studio on-site
- Full-service video and graphics department
